

## Lab Practice Session # 5

Course Title: Compiler Construction Lab (CSTE-3110)

1. Write a YACC program to recognize string with grammar  $\{a^n b^n \mid n \geq 0\}$

Sample Input	Sample Output
Enter a string: aab	Invalid string.
Enter a string: aaabbb	Valid string.

2. Write a YACC program for implementing a calculator for computing the given expression

Sample Input	Sample Output
